RENOVATIONS»

# FRESH NEW FACES FOR NORTHWEST SPACES

Located in downtown Kirkland, Washington, **The Heathman Hotel** has renovated its 91 guest rooms and suites. The multimillion-dollar renovation includes a fresh, modern aesthetic.

Conceived by Interior Design International Inc., the new design celebrates the city of Kirkland and embraces its history. Natural woven textiles pay tribute to Kirkland as the location of the first woolen mill in the state, and each guest floor features a distinctive theme that showcases the region's beauty. The renovation includes a variety of luxury suites with dual-sided fireplaces, living rooms and signature themes, including the Gallery Suites, Terrace Suites and The Heathman Suite.

The Heathman Hotel features 4,555 square feet of meeting and event space that can accommodate as many as 200 guests.
